

Workers Making a Difference

Let's Make Changes at CDOT

It's a new day in Colorado. We now have a state government that is likely to be more open to employee concerns and ideas. We need to come together in a single, united voice to take advantage of this opportunity.

We can make a difference in:

- ! Fair Wages and Compensation
- ! A Secure Retirement
- ! Fair Workplace Treatment and,
- ! Other Workplace issues

What do you want to change?

Be part of making a better future. The Communications Workers of America (CWA) is working to help CDOT employees build an organization that will work to improve our workplace.

CWA is an International Union with over 600,000 members, including over 100,000 public workers in state and local government all around the country. State workers in Arizona, New Mexico, Texas and Utah are gaining a voice at the workplace by building a worker led organization with CWA. We can do it, too.

CWA is the most democratic union for public workers.
