

Dear Colorado senators and Members of Congress,

As your future constituent, I'm really counting on you to help repair and restore our economy. American working families are in dire need of your help pass the Employee Free choice Act. We need the power to bargain with our employers for secure jobs, healthcare and retirement benefits, and fair wages. I can only hope for a brighter future. Thank you for taking the time to read this letter.

Sincerely,

Daniel Bolton
